

## 2015 Florida Public Library E-Rate Discounts

The Division of Library and Information Services prepared this table using enrollment and school lunch participation data provided by the Florida Department of Education.

Note: "Library Attributes" on the new form 471 refer to Library Type, for example "PUBLIC."

Because of the new Modernization Order rules, the urban/rural designations on this page are for the main library system site within the county listed. Independent libraries within these counties should use the enrollment figures listed but confirm their own urban/rural designation using the urban/rural lookup tool at [slttools.universalservice.org/portal-external/urbanRuralLookup](http://slttools.universalservice.org/portal-external/urbanRuralLookup). Main systems may also confirm branch urban/rural designations using this tool.
